DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure: rubber straps, polystyrene foam VW 40, 70% foam sticks VW 40, 30% silic. hollow fiber, Diolen

Back upholstery structure fixed: rubber straps, polystyrene foam, Diolen

Back cushion upholstery structure (fixed with zipper): polystyrene foam, 70% foam sticks VW 40, 30% silic. hollow fiber, Diolen

UPHOLSTERY VERY CASUAL

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A very casual upholstery is characterized by a smooth, soft surface. The covers are intended showing a distinctive curly image and an extended wrinkling on seat, back and armrests already in new condition. With this high quality upholstery with bay quilting as applied a flexible mixture out of loose filling material as foam sticks and/or plumes enables a point adaptation to the body. For this the fillings are worked in separate bays which come more or less apparent depending on the cover. Sitzmarks are due to model and design typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

FUNCTIONS

FUNCTIONAL BACK FOR SEAT DEPTH ADJUSTMENT

With each element the back can be manually raised. Thereby the seat depth is enlarged up to 14 cm. The sofa becomes a high back.

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

LEGS

Angle leg no.1 (23 cm high) optionally available in:

- nickel satined (stainless steel optics)
- powder-coated black mat

from the left to the right:

Sword runner no. 2 (23 cm high) optionally available in:

- nickel satined (stainless steel optics)
- powder-coated black mat

from the left to the right:

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

COMBINATION OF COVERING MATERIALS

This model is produced with **covered frame**.

If desired with this model two different covers can be combined.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

Pricing:

Price calculation in general cover part 1

Exception:

CP1 in fabric and CP2 in leather (extra charge see price sheet)

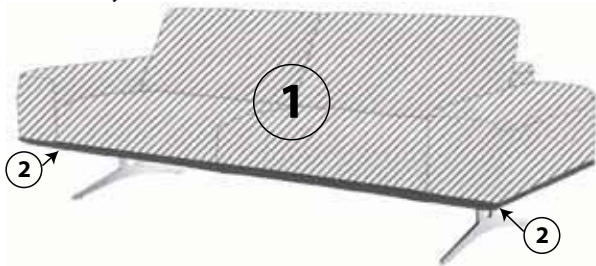

Fabric- and leather requirement of each cover part on request.

 cover part 1: seat, back, armrest as well as tensioning sections

 cover part 2 in fabric (exception 13-BISON): frame

 cover part 2 in leather and 13-BISON: frame and cover inlay armrest

Picture corresponds to cover part 2 in fabric (exception 13-BISON)

Picture corresponds to cover part 2 in leather and 13-BISON

Please note:

The cover inlay armrest is only possible with leather or 13-BISON!

When cover part 2 is produced in fabric (exception 13-BISON) the cover inlay armrest is not applied material-dependent!

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric-leather-combinations a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Exception 13-BISON**).

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on the rear side.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specification when ordering:

- **combination**
- **covering material**, with combination of covering materials **covering material per cover part**
- with leather covers and fabric-leather combinations production **with or without contrast stitching**
- with version with contrast stitching **colour of contrast thread**
- **leg version**; also **finish**
